Summary

I am a highly motivated and enthusiastic B.Tech student specializing in Computer Science & Engineering, with a strong foundation in programming, algorithms, data structures, and software development. My academic journey has equipped me with skills in various programming languages, including C, Java, and Python, as well as experience with databases, operating system. I am passionate about exploring cutting-edge technologies like artificial intelligence, web development and database management.

I am a quick learner, able to adapt to new tools and technologies, and I thrive in collaborative environments where I can contribute to innovative solutions. My goal is to leverage my skills and knowledge to develop efficient, scalable software and contribute to impactful technological advancements. Currently seeking internships or project opportunities to gain hands-on experience in the industry and further develop my technical and problem-solving skills.

Apart from academics my hobbies include painting and I am a professional badminton player.
